Disclaimer

These data sets are based on records many of which date to the late nineteenth or early twentieth centuries. Research to clarify the number and exact extent of some of the monuments in the Register of Historic Monuments, is ongoing. Consequently, the information presented here should be considered as a work in progress and changes will be implemented from time to time. While every effort has been made in preparing this data no responsibility is accepted by or on behalf of the State for any errors, omissions or misleading statements on these pages or any website to which these pages connect.

Information about the Register of Historic Monuments

The Register of Historic Monuments is a list detailing all of monuments that have been added to the Register of Historic Monuments from 1960 to the present day. There are approximately 3235 monuments entered into the Register of Historic Monuments.

Format of the list

The list is made up of a number of columns detailing what the monument is, where the monument is, the date the monument was entered into the Register of Historic Monuments and the RMP number of the monument entered into the Register of Historic Monuments.

1. **ID:** The number assigned to each entry when it is added to the Register of Historic Monuments.
2. **Name:** This identifies the type of monument which has been added to the Register of Historic Monuments e.g. castle, church, passage tomb cemetery, etc. The terminology used does not strictly follow the classification of the Archaeological Survey of Ireland (ASI) e.g. the term 'ringfort' is used for earthen forts and 'cashel' is used for stone forts.
3. **Townland:** The townland names used are in accordance with those used by the Ordnance Survey. If a monument extends over more than one townland, all townlands will be listed.
4. **County:** The county in which the monument is situated.
5. **Date Signed:** The date the monument was entered into the Register of Historic Monuments.
6. **Date Published:** The date the details of the monument in the Register of Historic Monuments were published in Iris Oifigiúil.
7. **6 Inch Sheet:** The Ordnance Survey six inch sheet number the site is located on.
8. **Date:** This is the date the Register of Historic monuments was published in Iris Oifigiúil.
9. **RMP Number:** Each monument is entered in the Record of Monuments and Places (RMP) as established under Section 12 of the National Monuments (Amendment) Act 1994. A unique identifying number is assigned to each monument and place in the record. The RMP number provides the link to the records of the Archaeological Survey of Ireland (ASI) which contains further information on the monument in question.
