Disclaimer

These data sets are based on records many of which date to the late nineteenth or early twentieth centuries. Research to clarify the number and exact extent of some of the monuments that are covered by a preservation order/temporary preservation order, is ongoing. Consequently, the information presented here should be considered as a work in progress and changes will be implemented from time to time. While every effort has been made in preparing this data no responsibility is accepted by or on behalf of the State for any errors, omissions or misleading statements on these pages or any website to which these pages connect.

Information about the list of Preservation Orders

The list of Preservation Orders is a list detailing all of monuments that have had a Preservation Order or a Temporary Preservation Order placed on them. There are 558 sites entered onto the list of Preservation Orders.

Format of the list

The list is made up of a number of columns detailing what is covered by the Preservation Order/Temporary Preservation Order, where the Preservation Order/Temporary Preservation Order is located, the date and number of the Preservation Order.

PO Number: Each Preservation Order is given a number, the number is usually written as 1/2001, 2/2001 etc.

PO Date: The date the Preservation Order/Temporary Preservation Order came into effect. Temporary Preservation Orders are only valid for a period of 6 months after they have been signed in some cases they are orders revoking Preservation Orders and Temporary Preservation Orders.

PO Description: This identifies the type of monument covered by the Preservation Order/temporary Preservation Order e.g. castle, church, passage tomb cemetery, etc. The terminology used does not strictly follow the classification of the Archaeological Survey of Ireland (ASI) e.g. the term 'ringfort' is used for earthen forts and 'cashel' is used for stone forts.

Townland: The townland names used are in accordance with those used by the Ordnance Survey. If a monument extends over more than one townland, all townlands will be listed.

County: The county in which the monument is situated.

SMR Number: Each monument is entered in the Record of Monuments and Places (RMP) as established under Section 12 of the National Monuments (Amendment) Act 1994. A unique identifying number is assigned to each monument and place in the record. The SMR number provides the link to the records of the Archaeological Survey of Ireland (ASI) which contains further information on the monument in question.
